Projects

Portfolio Website

- Developed and designed a personal portfolio website to showcase front-end projects and skills.

- Built with a responsive layout, smooth navigation, and a modern interface for an improved user experience.

- Integrated project links, resume download option, and live previews of work samples.

Technologies: HTML, CSS, JavaScript

Live Demo: https://chourasiyaamit.github.io/Personal-Portfolio-Website/

Expense Tracker

- Built a responsive expense tracker with a clean and simple UI for managing daily transactions.

- Added features to add, edit, delete entries with automatic balance, income, and expense calculations.

- Implemented local storage to persist user data and ensure smooth functionality.

Technologies: HTML, CSS, JavaScript

Live Demo: https://chourasiyaamit.github.io/Expense-Tracker/

Interactive Quiz Application

- Built a responsive interactive quiz application with multiple categories and customizable question counts.

- Implemented dynamic question rendering, score calculation, and real-time progress tracking using JavaScript.

- Designed an engaging UI with smooth transitions to enhance the overall quiz-taking experience.

Technologies: HTML, CSS, JavaScript

Live Demo: https://chourasiyaamit.github.io/Interactive-Quiz-Application/

Achievements & Interests

- Built and deployed multiple frontend projects using HTML, CSS, and JavaScript.

- Regularly watch tech YouTube channels and web development tutorials.

- Learning new JavaScript tools and libraries. Enjoy playing cricket and participating in team activities.
